Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-26 are pending in this application

Election/Restrictions

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-6 and 25, drawn to setting a priority order for accepting a connection request, classified in class 709, subclass 227.
 - II. Claims 7-10, 17-24 and 26, drawn to a method refusing a request and directing the client to send the request for connection again, classified in class 709, subclass 229.
 - III. Claim 11-16, drawn to provides a reference value to the server and allowing connections based on the amount of client connected, classified in class 709, subclass 232.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I, II, III, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as setting a priority order for accepting a connection request. See MPEP § 806.05(d). Invention in Group II has separate utility as such a method refusing a request and directing the client to send the request for connection again. Group III has separate utility because it provides a reference value to the server and allowing connections based on the amount of client connected.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown and the search required for Group IV is not required for Groups I, II, and III by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Under 35 U.S.C. 133 a shortened statutory **period to reply to this Office Action is set to 30 (thirty) days.**
